book reviews
Anatomy and Biology of the Human Skeleton, 166–167, 582–584
Clinical Studies in Medical Biochemistry, 314
Colonization of the Pacific: A Genetic Trail, 858–860
Curse, The, 167–169
Endocrine Management of Infertility, 314
Evolution and Human Kinship, 314
Evolutionary Genetics, 314
Evolutionary Jurisprudence: Prospects and Limitations on the Use of Modern Darwinism throughout the Legal Process, 585–586
Fabric of Mind, 857–858
Female Animal, The, 167–169
Foundations of Human Genetics, 856–857
Future Stuff, 314
Genetic Engineering: An Introduction to Gene Analysis and Exploitation in Eukaryotes, 163–164
Genetics: Human Aspects, 577–578
Health and the Rise of Civilization, 451–453
Health Ecology in Indonesia, 164–166
History of Biology: A Selected, Annotated Bibliography, 316
Human Antiquity: An Introduction to Physical Anthropology and Archaeology, 314

Human Biology and Behavior, 315, 579–582
Human Evolution: An Illustrated Evolution, 315
Human Gene Mapping 9: Paris Conference, 169–171
Humankind Emerging, 315
Human Polymorphic Genes: World Distribution, 315
Human Reproductive Behavior: A Darwinian Perspective, 315
Human Revolution: Behavioural and Biological Perspectives in the Origins of Modern Humans, 453–455
Human Skeletal Remains: Excavation, Analysis, Interpretation, 307–309
Introduction to Physical Anthropology, 316
Introduction to Survey Research and Data Analysis, 447
Lab Manual and Workbook for Physical Anthropology, 309–310
Medical Anthropology in Ecological Perspective, 316
Molecular Evolutionary Genetics, 448–451
Physical Anthropology, 316, 586–587
Physical Anthropology and Archeology: Introduction to Anthropology, 316
Population Genetics and Evolution, 317
Reconstruction of Life from the Skeleton, 853–855
South American Indians: A Case Study in Evolution, 445–447
Symbiogenesis: A Macro-Mechanism of Evolution. Progress towards a Unified Theory of Evolution Based on Studies in Cell Biology, 311–313
